A LITTLE SPURT

But Discouragement Overcame Traders, and Market Sank Back Into Its Lethargy.

DECREASE IN CAR SURPLUS

American Railway Association Report Indicates Improvement in Freight.

NEW YORK, March 6.—Professional operations in the stock market were on a larger scale than recently juring the early hours of the day's session at the Stock Exchange, Discouragement then overtame the traders again at the small response attracted by their efforts, and the market sunk back into its lethargy. The price fluctuations were narrow and the built of the day's nearrow and the built of the day's moderate business was transacted in the first two hours. Traders were inclined to operate on the long side of the market.

The reduction in the Bank of England official discount had slight effect abroad or here. The accumulation of banking reserves in foreign centres and in this country is recognized as having the common cause of declining the day's activity, and evidence of money supplies for this reason is accopted with mixed sentiments. In the same way the collateral effects of the economies by the railroads to meet the decline in earnings come in for calculation.

An item in the day's news that gave restification was the decrease in sur-

Dun's Report of Bank Clearings for February

Bank clearings in February denote a continued smaller volume of payments through the banks than in either of the preceding years, total bank exchanges for the month, as reported

by R. G. Dun & Co., being \$8,726,261.749, a decrease of 26.0 per cent. compared with a year ago and 30.5 per cent. compared with February, 1996. There is little improvement in these comparisons over those in the preceding month—in fact, allowing for the difference in the number of days, the loss in February is a little larger than in January. February bank clearings are generally somewhat less than those of January, and this year is no

exception. The loss continues heaviest in the East and at Pacific coast points; it is nearly as large at the South, but not quite so heavy at Central Western cities. As in Jan-

uary, there is a small gain in the Far West, due chiefly to larger exchanges this year at St. Paul, Minneapolis, Kansas City, Omaha, and other cities in that group; compared with 1966, there is quite a large gain at many cities in this section and 1905 was a very busy year. Many cities in other sections report larger exchanges in February this year than in 1906, and

a few show a gain over a year ago, the notable instances being Syracuse, Wheeling, W. Va., Macon, Memphis and Galveston. The loss at New York City continues very large in comparison with both years, but in considerable measure this is due to the very much smaller volume of stock dealings and the much lower security values this year, influences which are very potent in their effect on the volume of settlements through the New York banks. Bank

exchanges by sections for the month of February are compared below for three years; also

In the South Atlantic States nearly all the cities report a decrease in exchanges compared with both preceding years, and the decrease is quite large at Baltimore, Norfelk, Savannah

Out of the Attack.

Times-Dispatch Bureau.
Munsey Building,
Washington, D. C. March 5.

It was learned to-day that the House
Committee on Rules will report tomorrow the resolution introduced by
Representative Lilley, of Connecticut,
calling on Congress to investigate the
influence wielded by the Electric Boat
Company, of New Jersey, in the matter
of securing authorization for the construction of submarines, and limiting
such authorization to vessels of the
type manufactured by the company
mentioned.

It would look as though the House
would have to adopt the resolution and
order the investigation. The adoption
of the resolution sind the investigation
which will follow will be a distinct
feature of this first session of the
Sixtieth Congress.

One Liber Sult Already.

The charges brought by Mr. Lilley
that prominent Democrats and Republicans of the House were in the employ
of the Electric Boat Company, the successor of the Holland Company, have
already caused the institution of one
libel suit against him. Frank Lord,
formerly of the New York Sun bureau
in this city, has brought suit against
Mr. Lilley for \$40,000 for alleged
defamation of character.

Lord published an alleged interview
with Mr. Lilley, in which the latter
was quoted as saying that John Sharp
Williams, and Representative Griggs,
of Georgia, and Representative James
Sherman, of New York, the latter a
Republican, were instrumental in influencing the Committee on Naval Affairs to authorize the construction of
eight submarines, and limiting the department to vessels of the Holland
type.

Lilley denied that he had given such
an interview, and in the presence of

Lilley denied that he had given such

partment to vesels of the Holland type.

Lilley denied that he had given such an interview, and in the presence of Griggs and Sherman on the floor of the House, denounced Lord to his face, as a liar, the designation being preceded by several unquotable adjectives, used to more specifically denominate the cheracter of falsification of which Lord had been guilty.

The Sun promptly dismissed Lord from its service, and the standing committee of correspondents entitled to the privileges of the press galleries of Congress, suspended him from the galleries, pending an investigation.

Lord admitted to the committee that during the vacation of Cougress last year he did receive \$200 for work done for the Electric Boat Company. Liley's statement to the committee was very unsatisfactory. The committee dismissed the charges against Lord with a reprimand.

Lord bases his suit against Lilley on the ground of Lilley's having repudiated the interview making charges against other members, which repudiation caused the standing committee to suspend Lord from the gallery and caused him to lose his position with the New York Sun. Lord insists that Lilley made the charges, and that becaused him to lose his position with the New York Sun. Lord insists that Lilley made the charges, and that he can sustain this contention by the testimony of three or four or more members of Congress.

JONES DISCHARGED.

No Evidence To Convict Man Whose Wagon Killed Child. Killed Child.

Jee Jones, the negro driver of the wagen which killed little Alice Stratton on February 24th at the corner of Leigh and Twenty-eighth Streets, was dismissed in the Tolice Ccurt yesterday morning.

No evidence could be produced to show that the negro was at fault. Birdie Harris, the little girl who was with Alice Stratton when she was killed, could not even identify the man, and did not remember whether he drove one or two horses. It was through Letective-Sergeants Wiltshire and MoMahon that a confession was got from Jones.
